

July 15, 2013

The Honourable Gail Shea
Minister of National Revenue
Room 556, Confederation Building
Ottawa , Ontario K1A 0A6

Delivered via email and Xpress Post.

Dear Minister Shea,

Further to our letter of June 26, 2013 , our petition has now reached its goal of 1000 signatures. Enclosed please find a copy of the updated petition signed by 1000 taxpayers. The petition is relatively self explanatory and is respectfully asking for your intervention to resolve complaints from taxpayers. The complaints are regarding taxpayer treatment by the Canada Revenue Agency, Compliance Service Initiative, out of the Winnipeg Tax Centre.

We acknowledge receipt of the letter from Brenda Paquette, your Executive Correspondence Section Manager. We respectfully suggest that the CRA officials continue to ignore the Federal court ruling cited in our earlier correspondence, and continues to advise taxpayers they will have to wait 2 years for an assessment if they don't withdraw their valid claims. CRA continues to utilize the withholding of assessments as a deterrence tactic. Federal Judge Phelan has determined that the two year time frame is not a valid requirement for CRA to issue the assessments. We feel it is only with your intervention to direct the CRA to issues tax assessments immediately that they will do so. Over 1000 taxpayers are asking you to do so.

Thank you in advance for your assistance and cooperation.

Yours truly,

J. Jaye Torley
President
